## OUR MISSION

No matter how far we travel or how much we grow, we remain connected to our humble roots — and our core mission: to do business a different way. The right way.

We've learned that anything is possible when we work collaboratively and think strategically. By challenging assumptions, taking action instead of making excuses, striving tenaciously toward our goals, treating our employees with dignity and our customers with respect, we'll keep our industry moving in new and better directions.

## MAINTAINING EXCELLENCE

Keeping our passengers safe requires keeping our vehicles operating at peak performance. With our proactive in-house maintenance program, including turnkey maintenance facilities in all our locations, we're able to control the quality and safety of our fleet while minimizing downtime.

Trained and qualified in-house technicians help us reach our goal of 100% compliance with regulations issued by the Federal Motor Carrier Safety Administration and U.S. Department of Transportation (DOT). To keep our fleets on the move, mobile maintenance trucks are available across each of our locations. In the rare instance a vehicle needs immediate assistance, our convenient locations across Northern and Southern California are quick to the rescue!

# A FLEET ABOVE

We make sure our guests get more fleet features for their investment. That includes beautiful vehicles, new interiors, wood floors, and smart features that make travel more enjoyable, convenient, and comfortable. Whatever your transportation needs, Sun Diego Charter has the fleet to get you where you want to go. Clean, comfortable and state-of-the-art vehicles are the finest on the road. We keep them that way, too, with our proactive maintenance program and industry-leading safety record. Get in, and you may never want to get out.

# SAFETY FIRST

At Sun Diego Charter, our passengers' safety is paramount. We've built the industry's most comprehensive and rigorous training and safety program. Selecting drivers with spotless records, and continually vetting them with frequent recurring training programs, and randomized drug/alcohol testing that exceeds the industry baseline standards by more than 100%. For even more peace of mind, Sun Diego Charter brings some of the industry's highest insurance standards at \$25 million.
